- In the event you do not have enough players, one player can play twice on three occasions per session without penalty.
- **TEAM FOULING:** There are two ways to foul;
 1. Each time your team does not have the required number of players and a player must play twice.
 2. Each time you must substitute a player out during match play and the original 3 players do not complete their matches as scheduled.
- **PENALTIES for FOULING:**

- One player from each team keeps score. Score keepers are required to compare scores after each round. Pay close attention to the names and the scores, both must match for the scoring to be correct. It is easy to put a wrong name in. Adjustments to scores may be made after checking for errors each time matches are completed. At times, adjustments to scoresheets must be made by the league operator. **Please make sure you match at the end of the night prior to submitting the match.**
- Each team receives a payout per session based on division standings. This will be based on total division income.
- To qualify for Las Vegas, you must play for 8 weeks on the same team within the same session.

8 BALL RULES OF PLAY

Rack your own balls, you must have opposing balls in the bottom rear corners. Your opponent can inspect the rack.

- To perform a legal break, 4 balls must hit a rail. If your break is illegal, your inning ends, and your opponent will re-rack & break OR your opponent can have you re-rack and break.

- If you pocket a ball on the break, the table is open.
- If you scratch on the break, your opponent gets ball in hand anywhere on the table.
- If you pocket the 8 ball on the break and do not foul, you spot the 8 ball and play the table in position OR re-rack and break again.
- If you pocket the 8 ball on the break and foul your inning ends and your opponent can either spot the 8 ball and take ball in hand anywhere on the table OR re-rack and break their own balls.
- Call your pocket. Failure to call your pocket is a foul & your opponent gets ball in hand.
- If you call a pocket and your ball goes in a different pocket, you lose your turn. Your opponent DOES NOT get ball in hand. They shoot from where the cue ball lands.
- Any balls jumped off the table or illegally pocketed balls stay down but count for that players group of balls.
- YOU MUST ATTEMPT A SHOT. You cannot pick up the cue ball and give your opponent ball in hand because you do not like the shot.
- You do not have to call a Defense shot.
- When you call a safety and pocket your ball (or your opponent's ball) as long as you hit your suit first and if you leave the cue ball hidden, your opponent must play from there or wherever the cue ball lies because you called a safety. (Safety applies when you have made a legal hit and pocketed your ball)
- You receive 1 point for each ball made and 1 point for each of your opponent's balls left on the table. You receive 3 points for the 8 ball. *Winner gets 10 points plus one point for each of their opponent's balls left on the table. Score should always equal 17.
- Do not remove any balls from the table after the game is over until the score is posted on the APP by both score keepers.

- It is recommended to play each game in order (**if you play out of round make sure the score is put in the right place.**)
- No time outs or coaching allowed while you are shooting. When your opponent is shooting you may talk to your teammates.
- NO makeup matches are allowed. You can pre-play matches if necessary. If you do not have a player to complete a match it will be considered a forfeit and forfeit points will apply, use WF in the scoring APP. Please inform the league operator of this.
- All matches should be completed on or before the night of play. Failure to submit matches on the date of completion will result in a 20 point penalty to both teams.
- Loss of Game can occur in the following circumstances:
 1. You illegally pocket the 8 ball (Early 8)
 2. You jump the 8 ball off the table on any shot other than the break.
 3. You pocket the 8 ball on the same shot as the last ball of your group.

GENERAL RULES

- At the end of each year (normally in December) the first-place team of each division and a wildcard team of each division of the three sessions will make playoffs.
- The wildcard drawing for each division will be held the first week of the following session except for the third session; this drawing will be the last week of the session.
- Only qualified players are allowed to play in the playoffs.
- To maintain your spot for playoffs, at least 3 of the original players must remain on the team.
- League players must play at least 8 weeks in 1 session on the same team to qualify for Vegas.
- Players must play a minimum of 5 weeks in the last session of the year on a qualified team.
- Up to 3 players can be added to a team, provided 3 original players remain on the roster. They must be on the team's roster before the last session and be qualified for Las Vegas prior to the playoffs.
- The same team cannot have more than one spot in the playoffs.
- Only 1 player who has a FargoRate of 700 or above is allowed on a team. FargoRate of 720 is considered a professional player. This player can play in league and playoffs, but they are **NOT** allowed to play in Vegas for the team. However, they can play in the Alfa Las Vegas. This is where pros compete as a warmup for Vegas while you are competing in BCA.
- If your teams wins to compete in Vegas and all your players do not have 200 games, you are subject to BCA placing you in a higher division than originally signed up for.

8 BALL PLAYOFFS

- During playoffs, 3 players play per team per round using the FargoRate handicapped system.
- The total FargoRate of the three selected players will determine the handicap.
- The determined handicap will be applied to EACH round, a total of 3 rounds per match. (9 total games)
- In the event of a tie, the tie breaker will first be determined by rounds won. If this does not result in a winner, the tie breaker will then be determined by games won.
- A minimum of one team will qualify for the 8 Ball National Championship and be allotted \$6,000.00 for winning along with a paid registration fee for the division they select. Carolina's BCA will also provide proper attire as required.

8 BALL IN LAS VEGAS

- Las Vegas is a 2-stage format based on the division that your team elects to play in. There are 5 divisions to choose from.
- Las Vegas allows for up to eight players on the roster with 5 CORE players and three SUBS. The 5 CORE players total combined FargoRate (team max rating) cannot exceed the division limit that they have selected to compete in.
- If adding players, these players did not have to participate in the playoffs for the winning team. They can be added after, however any player that was a participant of the winning team MUST attend Las Vegas to receive their monies.
- An added player DOES have to be qualified with a minimum of 8 games played in at least one session of the playing year on the same team.
- Any player on the Las Vegas team that was not on the playoff winning team does not receive monies from Carolina's BCA.
- Your team will be playing on 2 tables at a time.

- *TIP when registering your team: Because the combined FargoRate of the 5 CORE players cannot exceed the division limit and you can list subs, always list your lowest ranked players as the substitute. Las Vegas will allow you to sub a lower player for a higher player, but you CANNOT sub a higher player for a lower player in any division.

- The determined handicap will be applied to EACH round, a total of 3 rounds per match. (9 total games)
- In the event of a tie, the tie breaker will first be determined by rounds won. If this does not result in a winner, the tie breaker will then be determined by games won.
